A NEW THEATER NEEDED.—Now, it being fairly demonstrated that Pioche can support a theater supplied with good talent, we should like to see some of our moneyed citizens take the matter in hand and erect a creditable edifice. We have no doubt a sufficient fund could be raised by organizing a joint stock company. A hundred men subscribing \$100 each would give us a theater building that would be no discredit to the city. And the subscribers would run no risk in advancing the amount, as the shares being transferable, they would soon pass into the hands of one or a few of the theatrical profession. We would suggest to Manager Maguire that he make a canvass for a \$10,000 building fund, in the way proposed.

INADEQUATE POSTAL FACILITIES.—Our postal facilities with the mining camps and settlements to the east and south of us are very inadequate. The Hiko mail is carried but once a week on horseback, and the business interests between Pioche and that section frequently require the running of private expresses. Service on the route should be increased to daily delivery, and it should be extended to St. George, there to connect with the Salt Lake and San Bernardino routes. We insist that we need a stage line between Pioche and St. George by way of Hiko, and believe we would secure it by sending on to the postal department petitions fully setting forth the necessity of its establishment.

IMPORTANT IMPROVEMENT.—Our enterprising townsman, Alex. Brown, has concluded to erect a magnificent block on Lower Main street, in front of his fire-proof store-house. Work has already commenced clearing off the ground for the excavation of the foundation, and the masons will begin work as soon as the weather becomes permanently settled. It will be a large, two-story stone edifice, with brick front. The upper story will be finished as a fine public hall, something greatly needed in Pioche. It gives us pleasure to record this evidence of Mr. Brown's business prosperity.

THERE are between Filmore and Lehi scores of freight teams bound for Pioche, but owing to the condition of the roads, they are making but slow headway. The roads never were in worse condition—"it's a general muddle," says our informant, "from the railroad to Filmore." It is thought the authorities along the road might, by a small expenditure and a little labor, greatly improve their condition. There has not been an expenditure of five hundred dollars, by county authorities, on the roads between here and Lehi.

GETTING MORE AUDACIOUS.—The hoodlums of Pioche are growing more audacious daily. A fellow rapped at the door of Mr. W. H. Dolman's residence, north Main street, yesterday, and told the lady admitting him that Mr. Dolman had sent him for \$1.50. A servant was sent to Mr. Dolman's office for an explanation, and while going, the impostor took hasty steps in an opposite direction. This is a new dodge; look out for it.

AN IMMENSE SMELTING CONTRACT.—Judge Hall, formerly of this place, in connection with other prominent mining men of San Francisco, has contracted with the proprietors of the Bristol furnace for the smelting of 3,000 tons of ore from the Hercules mine, in Bristol district. This is a very important step in the development of that promising district, and we will have more to say about it in the future.

NEW FURNACE.—We hear that the new furnace at Bristol, constructed by Prof. Everett, for some company in that district, is completed and that smelting by it will immediately begin. Development on the Hercules, Cave, National and Bay State, in Bristol district, is being pushed with great energy, and the bullion product of that section promises to be heavy the present year.

Tax postoffice business directory was put up yesterday evening. It is a fine piece of advertising painting.

THEATER.—Last night Caste was repeated to a splendid house, and in capital style. Mr. Bates, as Eccles, was, as usual, successful. It was as fine a bit of character acting as we have ever seen. Mrs. Bates played Polly with her usual excellence. To-night, the great play of "Leah, the Forsaken," will be performed. Mrs. Bates in the title role. We may safely predict a crowded house, many seats being secured yesterday for the performance. To-morrow there will be a matinee; one dollar and half price for families. Altogether, the theater is a great success, both artistically and pecuniarily, and Manager Maguire made no mistake in forming his company.

LOST HIS EYE-SIGHT ENTIRELY.—Geo. McKean, the unfortunate man who was so badly injured by a blast in the Peacock mine, some weeks ago, has lost his eye-sight entirely. It was thought for a while that he would have partial sight from one eye, but we now have it from good authority that he is totally and hopelessly blind. What a sad visitation! Mr. McKean is a young man of not over 28 years, has enjoyed universal respect among those who knew him for his industry, gentlemanly behavior and moral worth, and his misfortune is deeply deplored.

CAUGHT ON THE WING.—An individual, whose name we have been unable to obtain, was taken from the last Salt Lake coach, just beyond the boundary, on a charge of forgery; but the warrant was not formally served until he was brought back into Nevada, the officer supposing this would legalize the arrest. We will try and get further particulars to-morrow.

CATS are not numerous in Pioche, but what there are make the most of their vocal powers. A friend says he is softly lulled to rest every night by their caterwauling, intermingled with the inhuman screechings of a Chinese fiddle. He is furious; he has a savage heart that couldn't be soothed by all the poetic fancies of Shakespeare ever thought of.

A WATER-HOLE.—An opening large enough to admit a man was cut in a firmly closed canvas tent at the Vulture mine, a day or two ago—with the object undoubtedly of larceny. As the contents had been removed, the enterprising thief probably went down the hill feeling as cheap as the historic warrior King of France of ballad notoriety.

FRUIT TREES FROM UTAH.—A Mr. Bowen arrived, yesterday, with a load of apple and peach trees, to fill orders in Pioche. We are told they will be set out in town, and hope the information is correct; but think it will prove rather expensive irrigating to pay three and a half cents a gallon for water.

A BOLD ROBBERY.—The safe of the Meadow Valley Mining Company was feloniously unlocked, night before last, by some one who managed to get hold of the combination, and checks abstracted to the amount of over \$800. The checks were cashed, and the perpetrator's whereabouts are unknown.

JOSEPH C. WATSON, if you see or hear of this item, write a letter to the teller of the Pacific Bank of San Francisco in regard to the death of E. J. West—public who was with, on the way from here to Arizona, when he died. The teller of that institution is a brother of deceased.

CHANGED THEIR PLACE OF MEETING.—The members of the Pioche Miners' Union have changed their place of meeting, as will be seen by an advertisement in this issue, from the school-house to the Justice's office, on Lacour street.

QUALIFIED.—Taylor R. Bird, of Clover Valley Township, yesterday appeared at the office of the County Clerk, took the requisite official oath, and filed his bond as Justice of the Peace of that township.

TO ARRIVE TO-DAY.—The following passengers left Hamilton yesterday for Pioche, who will arrive on to-day's stage: W. C. Byrne, Florence White, Montgomery, Wm. Bryde, James Bryde.

SOLD UNDER EXECUTION.—Sheriff Travis yesterday afternoon sold, under execution, the United States Hotel, at Bullionville. It was purchased by J. N. Craig, of this place.

MR. GRAVES' FUNERAL.—The funeral of Lucius S. Graves took place from the Episcopal church yesterday afternoon between one and two o'clock. It was generally attended.

ONE of the late attachment cases promises to lead to litigation—it being alleged that the provisions of the attachment law were not complied with in making the levy.

TIMBER LAND LOCATIONS.—A party of five or six left town yesterday to locate timber lands within two or three miles of the line of the Pioche and Bullionville Railroad.

COLONEL THORNTON says the entire country is enveloped in snow from here to Hamilton. The snow was never before known so deep at the latter place.

D. C. CLARK & Co. are improving the sidewalk in front of their store. Wouldn't it be a good thing if every Main street house would follow their example?

VOLUMINOUS petitions, we are informed, have been sent to Washington, asking that Postmaster Barnes be re-appointed.

THERE is still considerable unappropriated timber land contiguous to Pahrangat Valley. It will be valuable.

ALL is activity at Highland; as many men are engaged on the new mill as can work to advantage.

A FISHING and hunting party is on foot for an excursion to Pahrangat Valley.

A NEW cable is being made for the Meadow Valley hoisting works.

REAL ESTATE TRANSFERS.—A deed was yesterday filed for record in which James W. Nixon conveys to Charles Clark and Samuel Killman, in consideration of \$3,000, "to him in hand paid," lots 10, 11, the south 16 feet of lot 12, and lots 15, 16, 17, 18 and 19, in block 12, in Bush's survey, being on lower Main street. Killman has transferred his interest to Clark.

BRISTOL MILLING ORE.—It has been generally supposed that all the ores in Bristol district are of the smelting class; but this supposition is erroneous. We have been shown some very rich specimens of milling ore from the Ontario ledge, owned by Valincourt & Co. It shows a strong vein, and the owners are energetically developing it.

MR. VALENCOURT, a resident of Bristol district, who has just arrived from there, confirms all the flattering accounts we have lately heard from that quarter. A large number of men are engaged making coal-pits, ore is being hoisted in greater quantities than ever before, and two smelters will soon be in operation.

SCHOOL EXHIBITION.—Mr. and Mrs. Wilmarth—who, by the way, are excellent teachers—will have an exhibition at their school to-day, consisting of declamations, recitations, etc. Parents, and all feeling an interest in education, are invited to attend. The school officers are especially invited to be present.

MIXING MEN will please bear in mind that our Mining Review will be made up to-morrow, and we will be obliged for any reliable data they may furnish us for its compilation.

THE case of the State vs. Wm. Newman, indicted for grand larceny, was hanging fire in the District Court all day yesterday, and is still pending.

IMPROVING.—We are pleased to note that Guy Thorpe is improving from his late illness, and is now able to be about in his room.

WE will be obliged to whoever, at any time, will favor us with information in regard to the development of outside camps.

P. MCCANNON, an old resident of Pioche, and well known in Lincoln county, is seriously sick in San Francisco.

THERE is a dispatch at the Western Union Telegraph office for H. M. Hughes.

SPECIAL NOTICES.

[Notices under this head will be charged 50 cents per line for first and 10 cents per line for each subsequent insertion.]

WILSON & SOLOMONS, dealers in Cigars, Stationery and Periodicals, Puffs & McAlpin's. 720-1f
